Additional supplementary planting to existing boundary
 102m²

Proposed planting area to reduce light spill.
 6,268m²

292m²

It is proposed that additional planting is undertaken along the Western hedge (e.g. privet (*Ligustrum vulgare*), blackthorn and hawthorn) to screen lighting as well as the establishment of climbing plants; honeysuckle and ivy along the southern fence to reduce light pollution. It is further proposed that planting be undertaken along the path through Liffey Valley Park to create cover for movement for species such as badgers and hedgehog. It is proposed that hawthorn is used for this area North East of the track.
