

NOTES

Refer to notes on the plans and sections in the demolition and proposed drawing set for information on the works being carried out through the building. RCP drawings and the associated notes only capture works proposed to the ceilings on all floors.

C-01 New plasterboard ceiling with acoustic insulation.
C-02 Repaired historic lath and plaster ceiling.
C-03 Repaired plaster ceiling on masonry construction.
C-04 Cleaned, repaired and repointed masonry in the vaults.

Lighting Legend

Indicative lighting layouts are shown to outline to general approach to the lighting strategy throughout the building. Exact locations to be determined post planning. Positions shown are only indicative of type of fixture per room.

- (E) External grade lighting (surface mounted on ceiling/wall)
- Recessed ceiling fixture within new plasterboard ceiling.
- Surface mounted ceiling fixture.
- ⊕ Pendant fitting
- ⊕ Wall sconce
- Hanging Track lighting

NOTE: Refer to existing Reflected Ceiling Plans for ceiling heights

General Notes

- All necessary repairs to be carried out by a specialist plasterwork contractor.
- All plasters on historic masonry to be tap tested to determine if plaster is sound or blown.
- All lath and plaster ceilings to be checked for stability. Following lifting of the floor boards, ceilings are to be inspected and repaired in accordance with the method statements as required.
- Painted ceiling to be fully protected for the duration of the works on site.
- All cornices to be recorded and repaired in accordance with the method statement.

KEY

- █ Proposed works shown in black. See notes for further details.
- ▒ Existing fabric of the building in grey. See notes for further details.
