Make a submission:

As a resident of the Liberties, I object to the proposed re-zoning plan on the grounds that the area needs more community and recreational space rather than a 'super depot'. In recent years, the area has seen some very questionable developments, including too many student apartments and Aparthotels. This is an area that needs a broader view of development other than a dumping ground for questionable corporate developments and private gentrification plans. The area needs Council help to move it in the right direction.
