Disgusted by this plan. This area is not a dumping ground: for trucks, people, injection rooms, mendacity units, homeless hostels, wet hostels, emergency housing. We've had enough. No no no no no.

This area has the highest level of such as above in the entire City and Country. We have the lowest level of green space per head in the entire City and County, and Country.

We do not need, we do not want, we strongly object to, and will actively demonstrate to STOP THIS DUMPSTER DEPOT.

We will protect the few green spaces that we have, which you are actively trying to steal from the people. How dare you !!

We need football pitches, community parks, gardens. Our old, our infirm, our sick and disabled, our children need green spaces on which to walk, sit, rest. There are none. Due to the failure of DCC to take on board the issues we have drawn to your attention through Community Policing Forums etc - we now have problems in the few green spaces we have, as well as on our streets, lanes, alleyways etc. Do not even think about trying to argue that sanctioning green spaces would add to the issue of anti-social behavior in the area. We have the research to prove that by providing more green spaces, the level of crime and anti-social behavior drops. But you know this - or you should do. Do not play politics with us - you won't win.

There is a growing unrest in the Community that will visit your doorstep shortly should you press forward with this Dumpster Depot. That's not a warning - it's a fact.

So when you go home to your own areas, on the days, evenings, weekends - when you stroll around, or visit other neighborhoods - for one moment consider the proportional starvation - the famine of green space in this area - and that by taking any single part or action in this outrageous proposal - that you are inflicting further cruelty, deprivation, and dishonesty on every child, woman and man in this area - and to any and all who come in here.

With respect - go back to the drawing board - go back to the people - go away yourselves with any notion of dumping dumpsters in our back yard. Perhaps go ask the fine residents of Foxrock or Fingal, the men and maidens of Merrion, the Dames and Dudes of Donnybrook how they might like to have this here. O, is it because the people are poor here, that they are perhaps less worthy in your eyes. You've dumped everything else here - God knows it. You've ignored even your own policies and procedures by way of pushing projects onto us (even admitted by your own high ups). You've blocked your eyes and ears, for decades, to the people's needs here.

This one, and the next and the next will be resisted.

Shame on you for even trying this. Shame on you if you go ahead. Shame on you.
