I believe that building a pitch rather than a depot would be much more beneficial to the community and surrounding areas. There is little to no natural areas and little to no activities for young people to participate in. The Liberty Saints RFC has had great positive effect on many young men in the area and their friends that they invite in. A sense of community, commitment and pride is evoked by the group. They do not have suitable grounds to play on. I believe that the value of the benefits to the area and people is greater than the potential money made by the depot. Dublin City Council is supposed to speak for and help the people of Dublin and act for their benefit. Please consider these comments and think about the after effect of your decision to the rich area of the Liberties and how it speaks to your value of the people and their lives that live there. Thank you.
