We are a primary school of nearly 300 children situated in the heart of Dublin 8 on South Circular Road. At present our nearest Green spaces are Weaver Park, Oscar Square and Dolphin Park. As a school there is a great sense of community and a commitment by our parents and staff that the city should have a living heart where it is feasible and desirable to live in the City.

As someone who lives and works in Dublin 8 and as a leader of a school which prides itself on being active and promoting pride in your area and city - This decision flies in the face of everything we are trying to do. It tells our children that Dublin 8 doesn't matter and that an area which doesn't have a fraction of the green spaces that other areas have has been let down again by a city council that purports to be on our side.

Our school and community is so proud of all the volunteers who promote our area in terms of sport and wellness, often in sub standard conditions. We implore the council to reverse this plan and to create something which will encourage living, vibrant communities in the city and especially in Dublin 8. The city is in gridlock and this decision effectively does nothing to encourage those who are deciding to live a more sustainable life within the city.

Please do not hesitate to contact me if you require any further information.

Eddie Fox,

(Principle)
