

Dimensions of Cycle Parking Stands

The cycle parking stands that DCC provide are toastrack style Sheffield stands. We supply these in both standard and junior sizes. The photo below shows the Standard size stands. Standard size stands will work for most bikes from older primary school upwards. Junior sized stands work better for younger primary school classes.

Please make sure you measure the dimensions to decide which option would work best for your school/club.

Number of stands	Number of bikes	Dimensions for standard size	Dimensions for junior size
5 stands	10 bikes	Height = 820mm Width = 750mm Length = 3050mm	Height = 600mm Width = 715mm Length = 3050mm
3 stands	6 bikes	Height = 820mm Width = 750mm Length = 1340mm	Height = 600mm Width = 715mm Length = 1340mm
